SUPERINTENDENT'S REPORT

Following is presented my eleventh annual report with school statistics for the year:

Your schools are carrying on this year under the same arrangement as during the previous year. The elementary grade children are being transported to a consolidated school at the Hill, and the high school pupils are being transported to Lancaster. This plan seems very satisfactory as it gives the high school pupils an opportunity for a variety of different courses, and the elementary pupils are classified with two grades to a teacher.

The management, discipline, and instruction have been very good, and pupils who have graduated from our eighth grade and have continued their education at Lancaster have, in all cases, made good. The attendance for the school year was 90.1 per cent.

Schools opened for the present year with only one change in the teaching staff:—Mrs. Louie S. Carlisle, a teacher of experience, replacing Miss Pratt, who resigned during the summer to accept a larger position.

Mrs. Gladys Fancy, a registered nurse, is this year doing the work of Health Supervision.

A tentative budget for 1945-46 has been prepared and may be found in another part of the school report.

Another Enemy To Conquer !

Here is a home front fight that everyone can get into. Last year in this State 558 brush and forest fires burned over 4,648 acres of land, of which 2,788 acres were valuable timber and young growth. With available manpower the lowest of any year since the war started, you can help to keep this loss down by preventing these fires from starting.

Keep in mind these simple rules:

1. Always get a permit from your forest fire warden before starting any fires in the open. Burning under certain conditions is permitted.

2. Never burn unless you have enough help to control your fire—a permit does not excuse you of negligence in case it gets away.

3. Always report any uncontrolled fire promptly to your forest fire warden. Minutes lost are acres lost.

4. Be especially careful with cigarettes, matches and pipes. Smokers caused most of our fires.

5. Never leave a fire unless it is dead out. You can't feel safe while there is a spark left.
